

PALFINGER 370 KS 4x4 Drive

The P 370 KS is agile, versatile, compact and extremely powerful. This platform combines the best of two worlds. It integrates the impressive flexibility of the WT series and the compact design and well-known counter slewing system of the KS series.

- Robust, 2m wider aluminium workman basket with 500kg load capacity and integrated Powerlift support
- Flat sub-construction under the cage enabling best possible target reach
- Fully variable jacking for exact stabiliser positioning

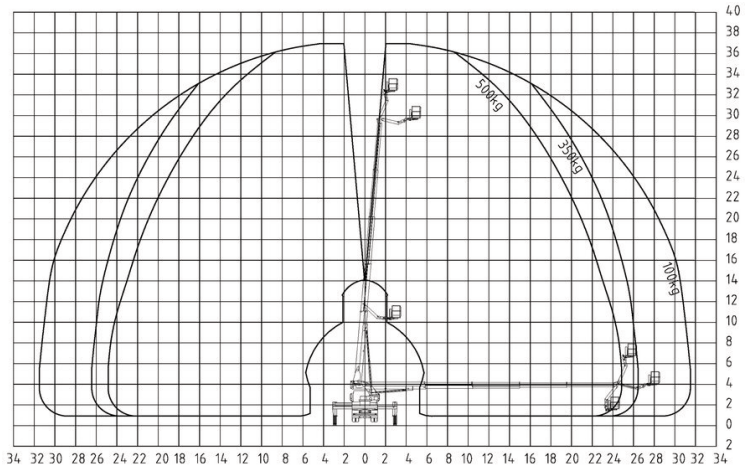

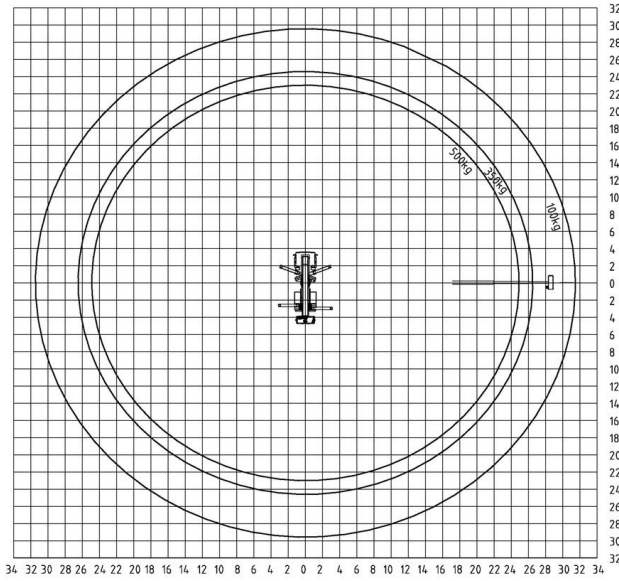

- Operator information and guidance systems via display in the truck cabin and the Premium control panel
- 1000mm stroke to compensate rough terrain
- Automatic set-up with adaptive levelling
- Counter slew-system permits extremely compact dimensions
- Rotation within mirror-width of the vehicle
- Time-saving outrigger control via automatic set-up from the ground
- Foldable rear crash protection increases slope angle
- Range optimisation through continuous processing of outrigger position, inclination and basket load
- Maximum speed, start and stop ramps individually adjustable
- Easy-to-use electronic emergency operation of all platform functions via display
- Diagnostic tools such as PALDIAG.CMI, Palfinger APP and QR-Code
- Available for two axle chassis with GVW from 15,5t upwards
